- keyboard/mouse/laser pointer
- podium surface
- shared laptop keypad
- projector adjustment keypad
- Chair arms and height adjustment
- Conference table top
- Door handles/light controls/microphone and or wireless headsets
- White board erasers & markers

**Commercial Building Elevators/Escalators & Entryway**

- Elevator call button
- Elevator Cab Floor buttons
- Internal handrails
- Escalator handrails
- Turnstile arms
- Revolving Door and standard door handles
- High touch railing
- High touch lobby/waiting area chairs, couches, desks
- Call buttons, phones, and touchscreens
- Tenant Suite Door Handles
- Guest sign-in pen

### **Employee Workspaces**

Employee Workspaces are areas where employees spend the majority of work hours conducting assigned tasks. They include offices, assembly lines, warehouse, cubicles, operation control centers, call center, server/computer locations. Often these areas have specialized equipment and touchpoints are not readily recognized unlike common area touchpoints. It is important to work directly with the employees and managers in these areas to identify touchpoints.

#### **Offices/Cubicles/Call Centers**

- Keyboard/Mouse
- Light switches
- Door handles
- On/off buttons for computers and monitors
- Window/window shade handles
- Thermostat control
- Chair handles/desktops
- Phones handsets/headsets
- Employee time card machine and time card holder
- Multifunctional Photocopier touchpads
- Common use office equipment including staplers, scissors, etc.
- Security keypads
- Drinking water dispenser buttons/fountains

#### **Inventory Warehouses**

- Forklift controls/pallet jack handles
- Loading dock controls
- Barcode scanners
- Shared computer workstations
- Inventory printer keypads
- Commonly used door handles
- Staging area touchpoints
- High touch safety railing
- Common use phones/call buttons

**Assembly lines**

- Employee station tools/robot controls/keypads
- High-touch surfaces within employee station
- Inventory staging area high touch surfaces/equipment
- Line control switches/buttons
- High touch buttons/keys/knobs control centers
- High touch, common use tools/equipment
- Hopper lid handles
- Overline stair railings

**Machining/Fabrication**

- High frequency common use tool handles
- Common use tool box handles
- Machine on/off buttons, keypads, touchscreens
- Compressed Gas Valve controls
- Common use bench top, vice handles, measuring devices

**IT/Server/Data Centers**

- Crash Carts & associated network/interface cables
- Cabinet/rack door handles
- Server pull handles
- Technical staff tools
- High frequency touchscreens, keyboards, desks

**Food Service**

- Common use ingredient storage containers
- Gas stove/grill knobs
- Order up bells
- Food preparation device handles and buttons
- High frequency touch storage handles
- Refrigerator/Freezer/Oven/Ice Machine handles
- Order touchscreens/payment registers
- Common touch railing and door handles
- Seating touchpads and Host podium surface
- Prep area sink handles and facet extension grips
